Teaching Tips for Grown-ups

Core Skills Studio · Lantern Path Books

A few simple ways to help your child get the most from this workbook. Little and often works best, ten quiet minutes a day beats an hour once a week.

Adding and taking away

For adding, start with the bigger number and count on. For taking away, count back. Saying it out loud helps it stick.

The start of the times tables

Little cheat: practise counting in steps out loud, 2, 4, 6, 8, 10... then 5, 10, 15... then 10, 20, 30. This skip counting is the start of the times tables. A child who can count in 2s already knows the 2 times table.

Handwriting

Capital letters start names and the days of the week. Tall letters (b, d, h, k, l, t) reach the top line; tail letters (g, j, p, y) drop below it.

Common words

Some words (the, was, said, they) cannot be sounded out, they are learned by sight. Show them quickly, a few each day, rather than all at once.
