

⊕ Fractions Wall

Every row is the same length. The more equal pieces we cut the whole into, the smaller each piece, but they always add back up to one whole.

1 whole	1									
Halves	$\frac{1}{2}$					$\frac{1}{2}$				
Thirds	$\frac{1}{3}$			$\frac{1}{3}$			$\frac{1}{3}$			
Quarters	$\frac{1}{4}$		$\frac{1}{4}$		$\frac{1}{4}$		$\frac{1}{4}$		$\frac{1}{4}$	
Fifths	$\frac{1}{5}$		$\frac{1}{5}$		$\frac{1}{5}$		$\frac{1}{5}$		$\frac{1}{5}$	
Sixths	$\frac{1}{6}$		$\frac{1}{6}$		$\frac{1}{6}$		$\frac{1}{6}$		$\frac{1}{6}$	
Eighths	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$
Tenths	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$

Two quarters make a half. Five tenths make a half. Lay a finger across the rows to see which fractions are the same size.
