

Blank Fractions Wall

Every row is the same length and already divided into equal pieces, write the fraction inside each piece. Then check it against the finished Fractions Wall.

Label each piece with its fraction, like $1/2$ or $1/4$.

1 whole	<input type="text"/>
Halves	<input type="text"/>
Thirds	<input type="text"/>
Quarters	<input type="text"/>
Fifths	<input type="text"/>
Sixths	<input type="text"/>
Eighths	<input type="text"/>
Tenths	<input type="text"/>

Name: _____ The more pieces a row is cut into, the smaller each piece, but they always add back up to one whole.
